**Statement of Work – Energy Advocate Summer Project**

**Purpose**

The Energy Advocate Youth Demonstration project, funded with American Recovery and Reinvestment Act (ARRA) funds, is a project that will create a new connection and working relationship with the Wisconsin Energy Conservation Corporation and the Workforce Development Boards (WDBs). Wisconsin Energy

Conservation Corporation (WECC) is the administrator for Focus on Energy, Wisconsin's statewide energy efficiency and renewable energy program.

DWD is making ARRA funds available to 5 WDBs, which were selected based on urban communities with high unemployment rates, to connect disadvantaged young adults to jobs in electrical residential audits/demonstration. Each WDB will receive funding for 2 teams of 2 energy auditors and 1 supervisor position for up to 40 hours of training and 8 weeks of work at 25 hours per week each.

The WDBs will target at-risk youth for these positions and be responsible for the recruitment, enrollment, employment and management oversight of the 10 demonstration teams.

WECC will provide the energy efficiency training, evaluation, household supplies, marketing and energy efficiency expertise to help launch the program. WECC will cover the costs of providing lodging, meals and transportation costs to and from the centralized training.

Youth will be employed to assist individuals in reducing their household's electric usage by giving advice, adjusting equipment and providing simple installation of some energy efficiency measures.
